AMSAT NEWS SERVICE SPECIAL BULLETIN
ANS-101.01

In this Special Bulletin:

* Diwata-2 Designated Philippines-OSCAR 101 (PO-101)

SB SAT @ AMSAT $ANS-101.01
ANS-101 AMSAT News Service Special Bulletin

AMSAT News Service Special Bulletin 101.01
 From AMSAT HQ KENSINGTON, MD
DATE April 11, 2019
To All RADIO AMATEURS
BID: $ANS-101.01

On October 29, 2018, the Diwata-2 microsatellite was launched on a H-2A launch vehicle from the Tanegashima Space Center, Tanegashima, Japan. Diwata-2 was developed by the PHL-Microsat program now succeeded by the STAMINA4Space program, and in cooperation with Tohoku University and Hokkaido University. The satellite carries an amateur radio payload that has been tested and is now ready for service.

At the request of the STAMINA4Space program, AMSAT hereby designates Diwata-2 as Philippines-OSCAR 101 (PO-101). We congratulate the owners and operators of PO-101, thank them for their contribution to the amateur satellite community, and wish them continued success on this and future projects.

73,

Drew Glasbrenner, KO4MA
AMSAT VP Operations / OSCAR Number Administrator

[ANS thanks AMSAT VP Operations / OSCAR Number Administrator Drew Glasbrenner, KO4MA, for the above information.]

/EX

In addition to regular membership, AMSAT offers life memberships, and sustaining donors to AMSAT Project Funds, will be eligible to receive additional benefits. Application forms are available from the AMSAT Office.

Primary and secondary school students are eligible for membership at one-half the standard yearly rate. Post-secondary school students enrolled in at least half time status shall be eligible for the student rate for a maximum of 6 post-secondary years in this status. Contact Martha at the AMSAT Office for additional student membership information.

73 and Remember to help keep Amateur Radio in space,
